FrenchCreek Production Moves Corporate Headquarters to New Location

Franklin, PA - July, 2013 – FrenchCreek Production, Inc (FCP) a Franklin, PA based manufacturer of quality Fall Protection and Rescue/Recovery Systems, has officially announced it will be moving the Corporate Headquarters and manufacturing factory to a new location.

Located only ½ mile from the current facility, FrenchCreek’s new home is a 45,000+ square foot building located at 100 North Thirteenth Street in Franklin, PA. Sitting on 6+ acres, the structure will feature a large manufacturing facility with warehouse, a reception and customer service center, and a multitude of individual offices and conference rooms.

Jason Wible, President of FrenchCreek said, “This transition comes at a very strategic time for FCP, as the company has experienced substantial growth in the past few years. We have been on the verge of outgrowing our current location for some time, and it has taken a while to find a suitable building and location that fits our needs and anticipated growth. Remaining within the City of Franklin was the primary goal during our relocation efforts. FCP has a strong local connection with the city, plus it’s easily accessible and centrally located within our region. The new building is ideal in many facets, including the size of the building itself, its contemporary appeal, the large parking area, and the large scenic campus that is beautifully situated alongside French Creek – the waterway in which the company was named. All in all, the property is a perfect fit, but we will still need to do some renovations to make it absolutely ideal for the company and all of our employees.”

FrenchCreek Manufacturing Manager, Chris Williams said, “Moving the operation while being increasingly busy may prove to be cumbersome and daunting. However, through careful planning and execution, we intend the move to be relatively seamless for our customers. The goal is to ultimately increase effectiveness and supply through manufacturing, which the new building alone will facilitate, but we are also taking this opportunity to upgrade some equipment and manufacturing processes to improve efficiency across the board.”

Although FrenchCreek’s physical address will be changing, their phone, fax, and employee email addresses will all remain the same.

About FrenchCreek Production:
